NOTE: I tried to transcribe this exactly as it was printed, errors and all. There were times that I could not be 100% sure as to the letter used. The biggest problems were with v & y; i & l; c & e; b & h; in & m. I also used ? as a place holder for a letter I could not read even though common sense told me what the letter should be, example ?ohn.

Since I put this into PDF format it should make it easier to search. Hope you are able to find your ancestor.
